DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 27, 2003 has been entered.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1, 3-9 and 20-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 claims both an apparatus and a method of using the apparatus, specifically, a device for inspecting an ophthalmic lens for defects comprising a sonotrode and a method of using the device comprising immersing the sonotrode in a test liquid in such a manner that ultrasonic waves emanating from the sonotrode are transferred to the test liquid to create sufficiently high and homogeneous ultrasonic field to destroy defective lenses located in a holding container. A single claim which claims both an apparatus and the method steps of using the apparatus is indefinite under 35 U.S.C. 112, second paragraph. *Ex parte Lyell*, 17 USPQ2d 1548 (Bd. Pat. App. & Inter. 1990). See MPEP 2173.05(p)(II).

Art Unit: 2856

Claim 3 appears to recite only a method-of-use limitation, namely, operating the device such that the ultrasonic power intensity lies in the range of 80-150 W/cm². Likewise for claim 21.

Claim 5 appears to recite only a method-of-use limitation, operating the device such that the ultrasonic waves emanating from the sonotrode are in the frequency range of 20 to 30 kHz. Likewise for claims 6, 22 and 23.

4. Claims 10, 12-19 and 24-26 are allowed.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John E Chapman whose telephone number is (703) 305-4920.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hezron Williams can be reached on (703) 305-4705. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0956.
